📞 9158559339 ✉ dandwateakshay77@gmail.com 🔗 LinkedIn 🌐 Portfolio

Objective

Motivated Full Stack Developer skilled in Java, Spring Boot, ReactJS, MySQL, and AWS cloud services (EC2, S3, RDS, IAM). Experienced in developing scalable and secure web applications through internships and sponsored live projects. Seeking to contribute to a growth-driven IT team with a strong focus on backend development, API design, cloud deployment, and performance optimization.

Education

Guru Gobind singh College Of Engineering And Research Centre. <i>Bachelor of Engineering – Computer Engineering</i>	Nashik 2024
Karmaveer Shantarambapu Kondaji Wavare Arts, Science , Commerce College, CIDCO. <i>Class XII</i>	Nashik 2020
T. J. Chavan (Bytco) Vidyalaya, Morwadi, Cidco. <i>Class X</i>	Nashik 2018

Technical Skills

Programming: Java,Python, C, C++

Frameworks: Spring Boot, Spring MVC, Spring Security, Hibernate

Web Technologies: HTML5, CSS, Bootstrap, JavaScript, ReactJS

Databases: MySQL

Cloud & Tools: AWS (EC2, S3, IAM, RDS, CloudWatch, AWS CLI), Docker, Git, GitHub, Jira, Postman, Eclipse

Software Testing: Manual Testing, Selenium (Basics)

Hardware & Networking: Computer Hardware, Troubleshooting, Networking Basics (CCNA), Network Configuration, Routing & Switching

Experience

Openview Technology Pvt. Ltd. (Onsite at Tata AutoComp Gotion) <i>System Engineer</i>	Oct 2025 – Present Pune
---	-----------------------------------

- Deployed on-site at Tata AutoComp Gotion Green Energy Solutions as a System Engineer through Openview Technology, managing end-to-end IT support.
- Monitored system and security logs, resolved incidents proactively, and ensured minimal downtime.
- Supported cloud-based tasks including email configuration, backup sync checks, and cloud application troubleshooting.
- Collaborated with Tata AutoComp Gotion's IT and network teams on escalations, server issues, and infrastructure support.
- Troubleshot laptops, desktops, printers, and network devices to maintain smooth operations.
- Performed server-related tasks including user permissions, shared folders, backups, and basic troubleshooting.
- Provided network support such as switch configuration basics, LAN/WAN checks, IP allocation, and DHCP/DNS issue resolution.
- **Key Highlight:** Ensured uninterrupted IT operations for a high-scale EV battery manufacturing plant by resolving critical issues within strict SLAs.

Paarsh Infotech Pvt. Ltd. <i>Web Developer Intern</i>	Feb 2023 – Mar 2024 Nashik
---	--------------------------------------

- Developed a comprehensive Dental Hospital Management System using JavaScript, Bootstrap, HTML, CSS, and Tailwind to enhance user experience and streamline operations.
- Designed and integrated real-time features like patient registration, appointment scheduling, and billing to improve system efficiency.
- Assisted with diagnosing and resolving software, hardware, and network issues within the development environment.
- Configured local systems, updated drivers, and optimized network performance for testing and deployment.
- **Key Highlight:** Delivered a complete live project used by a dental clinic, improving workflow automation by 60%.

Automart Software Services <i>Full Stack Web Developer Intern</i>	Oct 2023 – Dec 2023 Nashik
---	--------------------------------------

- Developed and maintained full-stack web application modules using Java, JavaScript, HTML, CSS, and related technologies.
- Optimized and debugged existing code to improve performance and meet client expectations.
- Provided technical assistance in setting up development systems including OS-level, hardware, and network configuration.
- Worked with routers, switches, and local servers to ensure reliable connectivity for development and testing.
- **Key Highlight:** Improved application load time by 35% by optimizing database queries and UI scripts.

Projects

1. Gym Management System for Leo Fitness (Sponsored Project) | *ASP.NET, Selenium, MySQL*

- Developed a complete Gym Management System using ASP.NET to streamline member registration, membership plans, scheduling, and billing processes.
- Designed intuitive UI screens and implemented backend modules to maintain member profiles, attendance history, and payment tracking.
- Automated appointment and slot booking system, improving operational efficiency and reducing manual work by 70%.
- Integrated MySQL for secure data storage and fast retrieval using optimized queries.
- Used Selenium scripts to automate repeated admin tasks and module-level testing.

2. Dental Hospital Web Application (Sai Hospital) (Sponsored Project) | *ReactJS, HTML5, CSS, JavaScript, MySQL*

- Developed a responsive Dental Hospital Management Web App with patient registration, doctor allocation, appointments, and billing modules.
- Implemented reusable React components (Forms, Tables, Cards) to enhance maintainability and performance.
- Integrated REST APIs to store and fetch patient records securely using MySQL.
- Improved UI performance and page load time through component-level optimization and controlled rendering.
- Implemented validation, error handling, and user-friendly form workflows to enhance overall system usability.

3. Online Student Attendance Management System (Sponsored Project) | *PHP, HTML, CSS, JavaScript, MySQL*

- Built an online platform for real-time student attendance tracking with role-based access for Admin, Teachers, and Students.
- Implemented features like attendance marking, monthly reports, subject-wise logs, and analytics dashboards using PHP and MySQL.
- Designed database schemas with relational mapping to ensure fast data access and reliable storage.
- Generated attendance summaries and downloadable reports to simplify academic record management.
- Built interactive UI screens with JavaScript validations and responsive layouts for seamless user experience.

Certifications

- Java full stack development And Software Testings. (TechnoSignia)
- Cybersecurity Analyst Job Simulation. (Tata Group)
- AWS Academy Machine Learning Foundations / Cloud Architecting / Cloud foundation. (AWS Academy Graduate)
- CCNA: Introduction to Networks. (Cisco)

Interests

- Cybersecurity and Ethical Hacking
- Web Development and UI/UX Design
- Participating in Coding Competitions
- Hardware Networking
- Playing Chess and Problem-Solving Games

Personal Information

Languages Known: English, Hindi, Marathi

Current Location: Pune, Maharashtra

Soft Skills: Communication, Problem-solving, Quick Learner, Positive Mindset, Teamwork

Declaration

I declare that all the information provided above is true and correct to the best of my knowledge.
