Full Stack Developer | Backend Engineer | Java · Spring Boot · ReactJS · AWS

PROFESSIONAL SUMMARY

Results-driven Full Stack and Backend Developer with hands-on experience in Java, Spring Boot, ReactJS, and AWS cloud services. Delivered 3 sponsored live production projects with end-to-end ownership — design, development, testing, and deployment. Quick learner with strong problem-solving skills, excellent communication, and proven ability to work effectively in agile team environments. Currently working as a Systems Engineer with cloud infrastructure and server administration exposure. Actively transitioning into software development with focus on scalable APIs, microservices, and cloud-native solutions.

TECHNICAL SKILLS

Languages: Java, Python, C, C++, JavaScript

Frameworks: Spring Boot, Spring MVC, Spring Security, Hibernate, ReactJS

Web & API: HTML5, CSS3, Bootstrap, Tailwind CSS, REST API Design

Databases: MySQL, SQL

Cloud & DevOps: AWS (EC2), Docker, CI/CD, GitHub Actions

Tools & Build: Maven, Gradle, Git/GitHub, Postman, Jira, Eclipse, Selenium

Methodologies: Agile / Scrum, Microservices Architecture, JUnit Testing

Networking: CCNA Fundamentals, LAN/WAN, DHCP/DNS, Switch Configuration, Linux Server Admin

WORK EXPERIENCE

System Engineer

Openview Technology Pvt. Ltd. (Deployed at Tata AutoComp Gotion, Pune)

Oct 2025 – Present

- Managed end-to-end IT support for high-scale EV battery manufacturing plant; ensured uninterrupted operations with <2hr incident resolution.
- Monitored system security logs using monitoring tools; resolved infrastructure incidents proactively and handled critical escalations.
- Supported cloud-based tasks: AWS email configuration, backup synchronization, and cloud app troubleshooting.
- Provided network support: LAN/WAN diagnostics, IP allocation, DHCP/DNS configuration, switch management.

Full Stack Web Developer Intern

Automart Software Services, Nashik

Oct 2023 – Dec 2023

- Developed and maintained full-stack web application modules using Java, JavaScript, HTML5, and CSS3; followed Agile development practices.
- Improved application load time by 35% through MySQL query optimization and front-end script performance tuning.
- Participated in code reviews and documentation; contributed to Git version control workflow.

Web Developer Intern

Paarsh Infotech Pvt. Ltd., Nashik

Feb 2023 – Mar 2024

- Built Dental Hospital Management System using JavaScript, Bootstrap, HTML5, and CSS3; delivered live production system improving clinic workflow automation by 60%.
- Designed responsive UI components and integrated REST APIs for real-time data synchronization.
- Provided technical support for OS-level, hardware, and network configuration in development environment.

KEY PROJECTS

Dental Hospital Management System | ReactJS, Spring Boot, REST API, MySQL

- Built production-grade web application for Sai Hospital covering patient registration, doctor allocation, appointment scheduling, and integrated billing system.
- Designed reusable React components reducing code duplication by 40%; built RESTful APIs with Spring Boot for secure patient data management.
- Implemented form validation, error handling, database query optimization improving load time by 45%; deployed on AWS EC2.

Gym Management System – Leo Fitness | ASP.NET, MySQL, Selenium, JUnit

- Developed comprehensive gym management platform with member registration, membership tiers, class scheduling, and automated billing.
- Automated slot booking system reduced manual administrative overhead by 70%; wrote Selenium test scripts and JUnit unit tests for regression testing.
- Optimized MySQL queries using indexes and query analysis; implemented OOP design patterns for maintainability.

Student Attendance Management System | PHP, JavaScript, MySQL, Agile

- Built real-time attendance tracking platform with role-based access control (Admin, Teachers, Students); used Agile methodology with 2-week sprints.
- Designed normalized database schema supporting 500+ concurrent users; generated monthly attendance reports and downloadable analytics exports.

EDUCATION

B.E. – Computer Engineering Guru Gobind Singh College of Engineering & Research Centre, Nashik	2024
Class XII Karmaveer Shantarambapu Kondaji Wavare Arts, Science & Commerce College, Nashik	2020
Class X T. J. Chavan (Bytco) Vidyalaya, Nashik	2018

CERTIFICATIONS & ACHIEVEMENTS

- Java Full Stack Development & Software Testing – TechnoSignia
- AWS Academy Graduate: Cloud Foundations | Cloud Architecting | Machine Learning Foundations
- Cybersecurity Analyst Job Simulation – Tata Group (Forage)
- CCNA: Introduction to Networks – Cisco

Declaration

I hereby declare that all the information provided above is true and correct to the best of my knowledge and belief.
